

THE BRITISH COLUMBIAN.
This journal is published every Tuesday, Thursday and Saturday, at the office, Lytton Square, New Westminster. Single copies, price 6d., or 12d. per copy. Terms per quarter, 10s., or \$1.00; half-yearly, 18s., or \$2.00; and yearly \$3.00, or \$3.50. Subscriptions must be paid in advance.
Copies of this paper can be had at the Book Store of Messrs. Clarkson & Co., Columbia-street.

ADVERTISING RATES.
Transient Advertisements, 2 lines and under, \$2 first insertion, and one dollar each subsequent insertion. Over two lines, \$3 per line for first insertion, and half a dollar for each subsequent insertion. Special contracts with regular advertisers.
Advertisements in order to ensure insertion, should be sent in before noon of the day before publication.
All Advertisements for insertion in the *British Columbian* must be paid in advance. Those for longer periods than one month are required to be paid each month in advance.
All Advertisements, unless the time for which they are to be inserted is specified, will be continued until ordered out, and so charged.

The British Columbian.

NEW WESTMINSTER, THURSDAY, AUG. 31, 1865.
THE PRESENT CONDITION OF BRITISH COLUMBIA BRIEFLY CONSIDERED.

If we are to accept as authority the press of Victoria and its Barkerville scion, British Columbia is indeed in a most alarming condition of ruin and decadence. Depopulated by a course of legislation the most monstrous known to modern times, it is about to revert back to primeval barbarism—to the undisputed dominion of savage Indians and ferocious beasts. The readers of these papers have but to draw slightly upon their imagination and they will distinctly hear the savage war-whoop, and see gory scalps dangling from wampam belts. Where but twelve short months ago were to be heard the hallowed sounds of Christian worship now resounds the horrid yell and frantic revelry of savagery again let loose. A colony which, under a former administration, afforded an illustration of that Scripture which saith, "the wilderness and the solitary place shall be glad, and the desert shall rejoice and blossom as the rose," has suddenly been transmogrified into a pandemonium, where all manner of unclean things, and foul spirits, and little devils and sundry other scaly monsters do congregate. Men who formerly penetrated its forests and developed its resources now pass by, wagging their heads and exclaiming, "If Sir James had still been Governor how very different would matters have been. Had British Columbia cultivated a more intimate connection with Vancouver Island it would even now be refecting as a bridegroom in the arms of Vancouver, who yet—yes, even yet, yearns to embrace it." To what is this awful reverse to be attributed? The answer is "The new Tariff and the Gold Export Tax!!" Yes. From the rocky, sea-girt isle we hear the answer, while the refrain is taken up by the little "Growler" on the banks of Williams Creek, and the savage Indians and little devils aforesaid join in unearthly chorus, singing "Double, double, toil and trouble; fire burn and cauldron bubble." Let us consult the same oracle and see what the definition of this ruin and decay is—what are the peculiar circumstances and features of the time which premonstrate the awful impending doom of British Columbia. The definition is supplied by the Barkerville paper, and may be briefly summed up as follows: "Plenty of cheap provisions, empty jails, empty hospitals, decreased litigation, a popular Gold Commissioner, and, oh! most terrible of all, the diggings YIELDING TWICE AS MUCH AS THEY EVER DID BEFORE!!! Paradoxical as it may appear, we find in one column of the *Sentinel* the most dismal croakings about the country being depopulated and ruined, and in the very next we are told that the yield of the mines is about double of what it was last year. We are asked to believe that thousands of our miners have been driven away by the enactment of obnoxious laws, and in the very next breath we are assured that there are more miners than can get work, that there are large numbers of men on Williams Creek utterly unable to obtain employment. How are such glaring contradictions to be reconciled? If Cariboo has a larger population than she can employ, how would a larger mend matters?—how can she be ruined for want of that of which she has confessedly a superabundance? If provisions can be had for about half what they cost in past times, if the mines are yielding double, where is the "ruin and decay"? If prosperity unprecedented be "ruin and decay," which would appear to be the case, according to the showing of our croaking contemporary, then indeed in having it we ought to "rest and be thankful." But the problem is easily solved. This parasite who has been planted on the banks of the famous golden creek for a specific political purpose, and who seeks to fatten on the folly of discontented dupes who may be silly enough to swallow his blatant nostrums, utterly belies the noble class for which he claims to speak, and to which he bears just the relation that the jackal does to the lion. The Tariff has driven no one away. How could it? Provisions under the new Tariff are cheaper than they ever were under the old, it matters not how nor why. What do the miners care about the Tariff, so long as they have plenty of cheap grub, whether that cheapness be enjoyed at the expense of the revenue or the Victoria merchant? Grub is cheap, and that is enough. The Gold Tax would never deter men from seeking for that which pays it. Why should it? Who but a fool would refuse to dig out gold because it will, when obtained, be subject to a tax of a fraction over two per centum? But, even admitting, for the mere sake of argument, that these measures are calculated to

drive men away from the country, where could they go to avoid that taxation from which they would flee? Not to Australia; for there the same taxes exist in a greater ratio. Certainly not to California or the neighboring territory, for that would be to use a phrase more expressive than classical: "out of the frying-pan into the fire." There they would meet with a much higher Tariff, while they would be compelled to pay an income tax double the rate of our Gold Tax, and from every box of pills and from every bunch of matches, and from every package of pins, from the largest down to the most trivial article of merchandise, would stand out upon them the everlasting Stamp Tax. Flee to the United States for relief from British Columbia taxation! Why the idea is superlatively absurd. We do not believe any considerable number of miners turned away from this colony in the spring; and if they did it was certainly not our laws that drove them away, but the awful picture which the Victoria papers and Victoria political demagogues gave of the colony and its laws. It is said to be an ill bird that foils its own nest. But what did the press of the neighboring colony do last winter and spring? Under the pretence of a fraternal regard, it spread broadcast to the world the most disparaging description of British Columbia, and labored hard to depict its Government and its laws in such hideous form as to deter immigration. If any party under Heaven is to blame for driving people away and deterring people from coming, it most assuredly is the clique which directed the press and controlled the political gatherings of Victoria during the earlier part of the present year; for certainly no stone was left unturned, no trick untried to make this colony stink in the nostrils of strangers. These disgraceful proceedings unquestionably exerted an injurious influence upon the country, and hindered many, especially in California, from resorting to our gold-fields; but after all that the eccentric malevolence of an unscrupulous and selfish party in Victoria could do, by misrepresenting our laws, and slandering our Government and people, it is a gratifying reflection that the colony is in a prosperous and healthy condition. It is true the population of Cariboo is somewhat less than last year. But, what of that? There are as many as can get employment—the *Sentinel* says a great many more—and with a less population nearly double the quantity of gold is being taken out. What better off would the country be with two or three hundred more idle men in Cariboo? They might do the Victoria merchants, who have shipped too freely to Cariboo, some good, provided they had the means to pay their way. But what real good would they do, either for themselves or for the country? If there are fewer men in Cariboo, by a couple of hundred or so, and if the number of unemployed is less in the same ratio, what of it? The population of the colony, as a whole, is not less, but greater, and better distributed and better employed; the revenue is larger and the yield of our gold-fields is greatly increased, while the miners and the colonists generally are prosperous, and contented and happy. Let "ruin and decay" come, if it brings with it no worse consequences than these, and we shall heartily welcome it.

NEW WESTMINSTER, THURSDAY, AUG. 31, 1865.

Telegram from Clinton.

RETURN OF ORR'S EXPEDITION.

The following telegram was received in this city on Tuesday:—

CLINTON, B. C., August 29th, 1865.
Orr's party returned to Cornwall's last night by the same route they went out. They could not get across the South Fork Range, though they crossed two other ranges, six to nine thousand feet high. No new discoveries.

This is, indeed, depressing news. That an expedition which has cost the colony a considerable sum, and from which such important results were expected, should come back in the middle of the season, indeed at the beginning of the best season for prospecting, with their finger in their mouth, so to speak, is matter of deep regret. As is usual under such circumstances, some rumor is not idle; but we would just say that the public would do well to "keep their counsel," and refrain from censuring until the commander of the expedition is heard. No man can be justly held responsible for ill success unless it be the result of incompetency or misconduct, either of which we are loath to believe true in this instance. Let Mr. Orr tell his story and then let him be judged, but not before. It is some consolation to know that while this, the expedition of the season in point of presumed importance as well as expense, has proved a failure, one of much less pretensions is likely to issue in very important results, in a more northerly direction. There is much consolation in the reflection that our gold fields are steadily multiplying and extending, even from the southern boundary line almost to the northernmost extremity of the colony; and although failure is always depressing, yet the failure of a single effort can but little effect the general onward march of the mining interests of the colony.

Later from Kootenay.

From Mr. George Bent, who has just returned from Colville, where he has been with a freight train, we have obtained the following information:—The news from the diggings was generally good, but did not possess any special feature of interest. With the exception of Wild Horse Creek diggings little actual mining has been done, nor has rich pay been struck in the Big Bend country, if we except the creeks previously reported. There are a large number of men out prospecting, and it is not unreasonable to presume that we shall soon have more definite results to chronicle. The scarcity and dearth of provisions in the Big Bend country militates against prospecting. The supply of provisions on Wild Horse Creek is abundant; flour 25c., and other articles in proportion. A considerable number of loaded trains were making their way in, and there is little probability of the supply falling short of the demand for the present season, at least. Mr. DeWdney had discharged his choppers on the section between Boundary Creek and Fort Sheppard, and he expected to have the entire trail open by the middle of August. Mr. Bent speaks well of the road, and says that good feed is found most of the way. He met Judge Begbie and suite four miles this side of Rock Creek, en route for Kootenay.

Good News from Bridge River.

From Mr. DeYoung, who came down from Lillooet on Tuesday, we learn that a letter had been received in that town from Mr. Jamieson, commander of the exploring expedition recently sent up Bridge River. The letter stated that they had struck diggings which prospect well, five pansful of dirt yielding \$125c. These diggings are not upon Bridge River, but on the head waters of a stream which falls into the Chilwaten River. The packer to the expedition had returned for a fresh supply of provisions; he made the return trip in 6 days with his animals, and calculates the distance at 150 miles. To those who know Mr. Jamieson it will be quite unnecessary for us to say that any report from him may be relied upon to the full, as both his judgment and integrity stand above suspicion. The party were setting to work to turn the stream and sink for the bed-rock. It is, of course, impossible yet to tell the probable extent of these new diggings; but from what we hear respecting the general features of that section of country, it is highly probable that an important gold field is about to claim its share of attention. Good diggings within 150 miles of Lillooet must become an attractive gold-field—easy of access and cheap provisions. We heartily congratulate the people of Lillooet upon the early success which has crowned their praiseworthy effort, and earnestly hope it will turn out to be all that could be desired. Judge Elliot left for the diggings on Monday morning. His official report will be looked forward to with deep interest.

Vancouver Island.

The Victoria papers brought up on Tuesday contain very little news of general interest. The Bear River excitement appears to have subsided, while the ecclesiastical-fence mania would appear to be gaining strength. If the report of proceedings of the City Council, as published in the Chronicle of Tuesday, be correct, we cannot form a very high estimate of the status of that body. It is quite possible that the Anglican Bishop has been encroached upon the public rights; but, admitting that such is the case, the course the Council has adopted all through is one of a most unbecoming and undignified character, and calculated, we should imagine, to bring that body into

contempt. It is for the community in which these farcical scenes are being enacted to judge, however, in what particular manner they will protect their rights, and we have no desire to interfere, only it looks very ugly abroad, that's all. While these unseemly scenes are being enacted in the Council Chamber, the Vice-Admiralty Court is occupied with the *Fiddler-Alexandra* collision case. This case has been before the Court for several days, affords material for filling a couple of columns in each of the daily papers, and bids fair to last for some time yet. The *Ann Adamson*, 244 days from England, was reported off Sooke harbor on Sunday, in distress, and was towed into Victoria harbor on the following day. She is consigned to Dickson, Campbell & Co., and her cargo, a general one, is, strange to say, reported in good condition. We clip the following account of the voyage from the *Chronicle*:—"The bark *Ann Adamson* left the Downs on the 17th of January, and has been 224 days on the passage; was ninety-one days from the Horn; was blown back to the eastward four times, and got round in about one hundred and forty-five days; experienced very bad weather until off Valparaiso, since then have had light variable winds; after rounding the Horn the scurvy broke out among the crew, and they one by one took to their bunks until only the captain, the first and second mates, and the cook were able to be about, the male and female passengers were compelled to assist in navigating the vessel, and continued to do so for four weeks previous to reaching here. On the 10th Aug., Wm. Haylett, a native of Yarmouth, Eng., aged 21, died of scurvy; on the 18th August, Martin Echterosen, a native of Hamburg, died of scurvy; and on the 20th, Peter Coffit, a native of Bergen, Sweden, died also of scurvy. On the 25th entered the Straits, and on the evening of the 27th anchored in Royal Roads.

The Indian Liquor Trade.

Our Nanaimo contemporary is ably denouncing the demoralizing whiskey traffic, now alarmingly on the increase amongst the Indians, and justly appeals to the authorities to put forth the legal arm and stay its dire ravages. We have perhaps no less cause to make a similar appeal to the Government of this colony; and we do so the more earnestly just now because it has come to our knowledge that one of those vilest types of man—one of those miserable, heartless wretches, who make an honest man blush for his species, is actively plying his hellish traffic amongst an encampment of Indians at present engaged in fishing at the mouth of the River. This scoundrel has, we are informed, brought several cargoes of "tangle-leg" from Victoria, which he has disposed of to those poor creatures, who have not the moral strength to withstand the tempter, and it is expected that one of the chiefs is about to die from the effects of the poison. We trust either the Customs authorities or the Police authorities will attend to this matter at once, and, if possible, in such a way as to secure the guilty wretch.

Justice demands that the Government should exercise a paternal protectorate over these poor semi-savages, whose lands we have taken, and whose hunting-grounds we have invaded, and amongst whom we have introduced all the evils of a so-called civilization. We cannot disinherit these original "Lords of the soil" and spurn them from us empty and unprotected with impunity. Policy demands that we should shield these people from the influence of the white destroyer. The natives outnumber us by tenfold; and our only safety is in their protection, elevation and improvement. If we fail to do our part in endeavoring to make them good subjects they will become a dangerous, troublesome and expensive enemy. Let the Government see to it that this traffic, which is at once defrauding our revenue and demoralizing our Indians, is put down with a strong hand.

The Advantages of Union.

In a very long and tolerably well written letter from the Victoria correspondent of the *Cariboo Sentinel*, chiefly devoted to the advocacy of union, and hinting very plainly that if British Columbia won't receive Vancouver Island, the United States will, the following admission is made:—"It (i.e. union) probably would not reduce the cost of Government very much, perhaps not at all, and any one who supposes that it would lead to a diminution of taxation is perhaps in error." The same writer, in giving his views as to how the union should be carried into effect says:—"The united Legislature at first should consist of the HOUSE OF ASSEMBLY OF VANCOUVER ISLAND and the Council of British Columbia combined, and it should be left to that body to decide the franchise—how many members there should be, and how the seats should be distributed." The fists and capitals are our own. Truly that would be a nice way of adjusting matters. The modest little island would thus have fourteen representatives in the united Legislature against four for British Columbia. We have no doubt a House so constituted would "distribute the seats" admirably.

The Gubernatorial Address.

The adjourned meeting to receive the report of the Committee appointed to draft an address to His Excellency the Governor, was held in the Hyack Hall last night. The report of the committee was received and the address unanimously adopted, when it was moved by Mr. Clarkson, seconded by Mr. Ferris, and Resolved,—"That Messrs. W. J. Armstrong, W. E. Cormack and John Robson be appointed a deputation to present the address, and that the Secretary transmit a copy of the same to His Excellency, requesting to be informed at what time it would be convenient to receive the deputation." After which the meeting adjourned.

FOR QUEEN CHARLOTTE'S ISLAND.—The schooner *Onward* sailed yesterday morning for Queen Charlotte's Island, with provisions, &c., for the Coal Mining Company.

Departure of the Governor.

Owing to dispatches received by the last steamer, or the departure of Governor Seymour for England will take place very much sooner than was anticipated. We learn that His Excellency will leave about 2 o'clock this afternoon on his steam-yacht *Leviathan*, and will proceed to San Francisco by the *Sierra Nevada*, which will be due at Esquimalt on Sunday.

A VERY DANIEL CAME TO JUDGMENT.—In a recent number of the *Barkerville paper* we find the following:—"When Governor Seymour broke through all restraint, and leagued himself with the Homerian school he did not stop with half measures. It was not enough to accept the Gold Export Tax Bill, but he must also impose a Tariff hostile to the best interests of the interior, in order if possible to prop up the value of property in his so-called capital. This His Excellency did, although it could only be done—we speak advisedly—by ignoring the plain letter and spirit of Her Majesty's instructions. Moreover Governor Seymour was sent out here to promote Union of the colonies, and how has he done it? By stifling in every possible way the expression of public sentiment on the subject. He not only got his minions to vote it down in the Council, but at last, through his Colonial Secretary, he barked the discussion of the question altogether." Certainly Governor Seymour should feel grateful, in coming to this new colony, to find at least one adviser who can teach him what the "plain letter and spirit of Her Majesty's instructions" are, what His Excellency was sent out here for, and what his duty is to the colony. If unbounded assurance and unparalleled impudence constitute requisites for an adviser the Editor of the "*Grouler*" possesses an undoubted claim to a seat in the Executive.

THE FIRE DEPARTMENT.—A deputation from the Fire Department, consisting of Capt. Hoyt and Chief Engineer Scott and Assistant Engineer Tilley, waited upon His Excellency the Governor yesterday. The deputation were most graciously received, and His Excellency was pleased to make a grant of £100, being the same as last year, towards the support of the department.

EXECUTIVE CHANGES.—The Hon. A. N. Birch will be administrator of the Government during His Excellency the Governor's absence from the colony, and we understand the temporary appointment of Colonial Secretary will be offered to the Hon. H. M. Ball, at present Gold Commissioner at Quesnelmouth.

CUSTOMS RECEIPTS for week ending Saturday, Aug. 30th, 1865: Duties (import), £1,050 12 11; do. (export), £594 4 10; harbor dues, £16 0 8; headmoney, £12 8; tonnage dues, £44 19 6. Total, £1,718 5 11. Number of passengers entering at this port during same period, 62.

CARIBOO WEST.—It is very possible that a vacancy will shortly occur in the representation of Cariboo West, the Hon. Mr. Moberly having been some weeks ago requested to resign his office of Councillor or the situation he fills in the Lands and Works Department.

ANOTHER EXCURSION.—The str. *Lillooet*, Capt. Fleming, will leave for Langley this morning on a pleasure excursion, the proceeds of which are to be devoted towards the funds of the bell-tower of Holy Trinity Church. The New Westminster Band will accompany the party.

THE CHIME.—The Bell-ringing Club are making marvellous progress. They chimed several pieces of sacred music in an admirable manner last evening.

AN ADDITION TO THE CHAIN-GANG.—Mr. Brown, the constable at Douglas, brought down an Indian convict on Tuesday, sentenced to two months hard labor.

FROM DOUGLAS.—The str. *Hope*, Capt. Dodge, returned from Douglas yesterday. She brought an express for Dietz & Nelson, and a few passengers.

FOR METLAKAHTLA.—The missionary schooner *Carolina* arrived yesterday with a cargo of goods for Metlakahla.

FOR HOPE AND YALE.—The str. *Onward*, Capt. Irving, left yesterday for Hope and Yale with a good freight, and a considerable number of passengers.

PROSPECTUS OF THE BRITISH COLUMBIA

COAL MINING COMPANY!

[LIMITED].

Incorporated under the Joint Stock Companies' Act, 1856, which limits the liability of each Shareholder to the amount of his Shares.

CAPITAL ----- \$100,000,
IN 2000 SHARES OF \$50 EACH, WITH POWER TO INCREASE.

300 A. SHARES have been issued as paid up shares to the promoters of the company, as the consideration paid them for their right to 800 acres of land, &c. 700 B. shares to be issued to subscribers, subject to payment of \$2 per share at the time of subscription, and of calls of \$1 per share, per month, until \$15 in all shall have been paid, when the subscribers shall be entitled to certificates of fully paid up stock. The remaining 1000 C. shares are reserved for issue at par when the Coal Mine is sufficiently explored and proved.

DIRECTORS:

CAPTAIN JAMES COOPER, Chairman;
Hon. J. A. R. HOMER, M.L.C.,
JOHN ROBSON, Esq.,
Sawyer, P. MOODY, Esq.,
JOSEPH C. HUGHES, Esq.,
W. CLARKSON, Esq.,
GEORGE DITZ, Esq.,
JAMES VAN BRAMER, Esq.,
W. J. ARMSTRONG, Esq.,
JOHN PICKAVANT CRANFORD, Esq.

AUDITOR:

THOMAS MCKICKING, Esq.

BANKERS:

THE BANK OF BRITISH COLUMBIA.

SECRETARY:

WILLIAM CLARKSON, Esq.

This company is organized for the purpose of exploring and mining for Coal, and boring for Coal Oil. The character of the sandstone at Burrard Inlet, its identity with the coal-bearing sandstone of Bellingham Bay and Nanaimo, and the numerous croppings of Coal to be found at different places on the Inlet and on English Bay, make it nearly certain that Coal measures similar to those of Bellingham Bay and Nanaimo will be found at a reasonable depth.

The company have secured a reserve of 600 acres on English Bay, and the British Columbia Government has pledged its support in every reasonable way. It is the intention of the company forthwith to explore the vicinity of English Bay for Coal, by putting down a bore—the strong probability being that in less than 90 days the ground will have been prospected and the company ready to sink a shaft and open a mine.

If the Coal croppings at English Bay or Burrard Inlet should be succeeded, as is usually the case, by thicker seams below, it must become an invaluable property. The position of the Bay and Inlet renders the harbors easy of access in all winds and seasons. The shore is bold, so that no long wharves or tramways would be needed, while the prices of Coal on the Pacific—averaging from two to three times the prices on the Atlantic—render the prosecution of Coal mining one of the most promising enterprises of the day.

500 B. shares are all that are at present offered for subscription. The monthly calls on these will be adequate to meet the current expenses of exploring; the subscribers to these shares incur a small risk, but they get a compensation—a \$50 share for the small sum of fifteen dollars.

Parties desiring of obtaining shares may be furnished with every information by applying to the Secretary, at the company's office, in New Westminster. jy27 to

ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT.

**Bad Legs, Ulcerous Sores, Bad
Breasts and Old Wounds.**

No description of wound, sore, or ulcer can resist the
healing properties of this excellent Ointment. The
worst cases readily assume a healthy appearance when
ever this medicament is applied: sound flesh springs
up from the bottom of the wound, inflammation of the
surrounding skin is arrested, and a complete and per-
manent cure quickly follows the use of the Ointment.

**Piles, Fistulas and Internal Inflam-
mation.**

These distressing and weakening diseases may with
certainty be cured by the sufferer themselves, if they
will use Holloway's Ointment, and closely attend to the
printed instructions. It should be well rubbed, upon
the neighbouring parts, when all obnoxious matter will
be removed. A poultice of bread and water may some-
times be applied at bed time with advantage; and most
scrupulous cleanliness must be observed. If those who
read this paragraph will bring it under the notice of
such of their acquaintances whom it may concern, they
will render a service that will never be forgotten, as a
cure is certain.

Rheumatism, Gout & Neuralgia.
Nothing has the power of reducing inflammation and
subduing pain in these complaints in the same degree
as Holloway's cooling Ointment and purifying Pills.
When used simultaneously they drive all inflammation
and depravities from the system; subdue and remove
all enlargement of the joints, and leave the sinews and
muscles lax and uncontracted. A cure may always be
effected, even under the worst circumstances, if the use
of these medicines be persevered in.

**Eruptions, Scald Head, Ringworm &
other Skin Diseases.**

After fomentation with warm water, utmost relief and
speediest cure can be readily obtained in all complaints
affecting the skin and joints, by the simultaneous use of
the Ointment and Pills. But it must be remembered
that nearly all skin diseases indicate the depravity of
the blood and derangement of the liver and stomach,
consequently, in many cases, time is required to purify
the blood, which will be effected by a judicious use of
the Pills. The general health will be thereby improved,
although the eruption may be driven out more freely
than before, and which should not be promoted; per-
severance is necessary.

**Sore Throats, Diphtheria, Quinsy,
Mumps & all other Derangements
of the Throat.**

On the appearance of any of these maladies the Oint-
ment should be well rubbed at least three times a day
upon the neck and upper part of the chest, so as to
penetrate to the glands, as salt is forced into meat;
this course will at once remove inflammation and altera-
tion. The worst cases will yield to this treatment by
following the printed directions.

**Scrofula or King's Evil and Swelling
of the Glands.**

This class of cases may be cured by Holloway's puri-
fying Pills and Ointment, as their double action in puri-
fying the blood and strengthening the system renders
them more suitable than any other remedy for all com-
plaints of a scrofulous nature. As the blood is impure
the liver, stomach and bowels, being much deranged,
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following
cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and	Sore Nipples.
Burns.	Stiff Joints.	Sore Throats.
Bites of Mosquitoes.	Elephantiasis.	Skin Diseases.
Bite of Snakes.	Fistulas.	Scurvy.
Coco-bay.	Gout.	Sore-heads.
Chicgo-foot.	Glandular Swel-	Tumors.
Corns (soft).	lings.	Ulcers.
Cancers.	Lumbago.	Wounds.
Chilblains.	Piles.	Yaws.
	Rheumatism.
